

## **WASHINGTON STATE DEPARTMENT OF REVENUE INFORMATION SYSTEMS JOB OPPORTUNITIES**

**The following INFORMATION TECHNOLOGY APPLICATIONS SPECIALIST 3 (ITAS 3) positions are 5 month temporary only.**

The various positions (8) will work supporting one of several groups within Department of Revenue.

**We seek the following skills:**

- Excellent technical programming skills in ASP DOT NET, SQL, JavaScript, C#, HTML, Java, Object Oriented Analyses and Design as well as understanding the DotNet Framework.
- Project/task management in an application development environment, and excellent design and programming language proficiency with C# and Object Oriented Design.
- Ability to multi-task, meet deadlines and prioritize work.

**The minimum qualifications are:**

A Bachelor's degree including 9 semester or 15 quarter hours of computer science courses which includes completion of course work in at least one application programming language and two years of programming, data analysis, or computer analysis experience.

OR

An Associate's degree or completion of an accredited vocational training program in an information technology or related program and three years of programming, data analysis, or computer analysis experience.

OR

One year as an Information Technology Applications Specialist 2 or equivalent.

Computer analysis, data analysis, or programming experience will substitute for education on the basis of one year of experience for two years of education.

A Master's degree will substitute for one year of experience except for the specified Information Technology Applications Specialist 2 requirement.
